Pharmaceuticals in Denmark

Development in the Danish Medical Export 1997-2008.
Pharmaceuticals are no. 1 export item

How did it start?

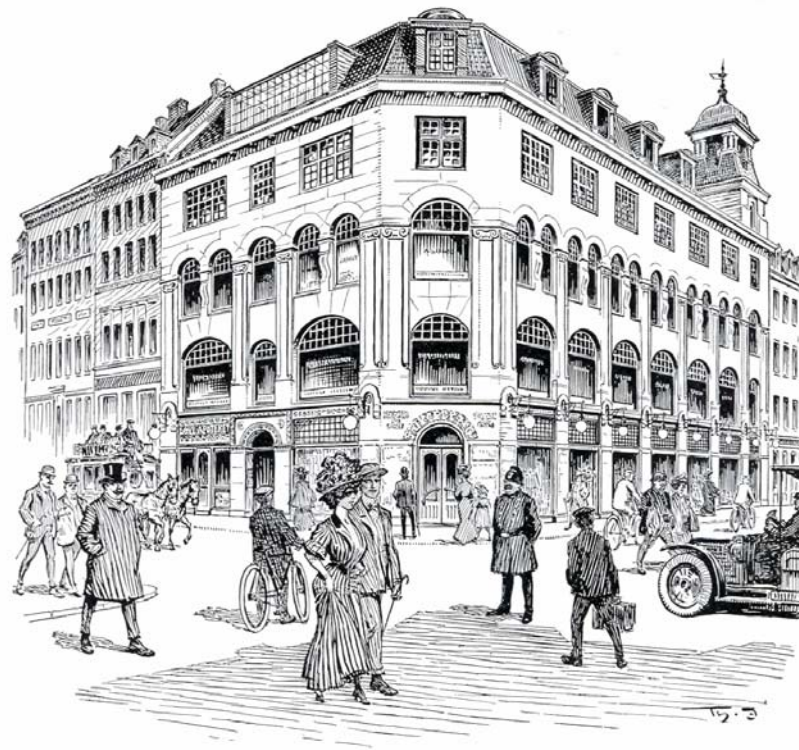

Anton Antons
1859-1920

August Kongsted
1870-1939

Where did it start?

The LEO Pharmacy 1620 – 1971

LEO Pharmaceutical Products 1908 -

LEO Pharmaceutical Products today

LEO Pharma

- Danish based
- Owned by a private independent foundation
- Research based, people driven
- Today specialised in
 - Dermatology
 - Anticoagulation
- Museum established in 2008

- To maintain and strengthen the “LEO Family Spirit”
- To show that challenges and innovation have always been key words for LEO Pharma
- To preserve the valuable historical documents/archive
- To built up a trade mark documentation system
- To show the heritage that belongs to and commits all LEO staff
